

Students are required to purchase from The Institute textbooks and kit items, required for the Educational Program, which are available only through suppliers that sell to licensed professionals / cosmetology colleges. The Institute sells textbook and kit items to the Student at the same cost (for these items) incurred by The Institute. In order to keep learning materials relatively current with changes in the industry and regulatory changes, The Institute, from time to time, may change the selection of textbook and kit items and it reserves the right to do so at its discretion. The Student will receive the appropriate textbooks and supplies required for the Educational Program from The Institute at the appropriate time that The Institute determines. Textbooks and supplies are subject to change at the discretion of The Institute.

Students will at his/her own cost, provide and wear Institute approved apparel and shoes. Students provided their own basic classroom school supplies such as stationery supplies that may include pens, pencils and notebooks for note taking. Materials for class projects will be announced in the class or through other notice from The Institute.

Textbook and Kit charges are separate from Tuition and Fees.
